

3/10/16

Dear Mr. Gaudreau,

With regards to the 3 violations that have been cited to 38 and 40 Washington ave.

#1—The 3rd floor tenants have vacated as of today and it is empty.

#2 & #3—The original master electrician that pulled the permit for the 32000.00 electrical update completed in September of 2015 has led me to believe he is taking care of signing off on the buildings. Ken Anderson is communicating with him to make this happen. His company is Design concepts. All is being addressed from exposed wires to capping the second floor electric to twist basement to extension cords. I was hoping I could say this was complete but getting someone in here has been like pulling teeth as everyone is incredibly busy and unfortunately I am low on the totem pole.

Thank you for your patience, your time and your kindness. I will do my best to not disappoint you in the future.

Sincerely,

Colleen Kelley, owner

PS. The Electrician was supposed to email yesterday per Ken Anderson
