

## Description of awning to be built at 38 Washington ave

Awning to be built is to look like the awning that is currently over the windows on the building next to 38 Washington ave.

The awning is a simple box that will measure 18 inches high 18 inches deep and 22 feet long.

The awning will be built out of one inch L angle steel and clad with  $\frac{3}{4}$  inch azak which is a composite that will not hold water our ever rot

The frame of the awning will be secured by using timber locks and screwed directly into wall studs of building

The awning does not encroach onto city property the furthest point of the awning is still 4 and  $\frac{1}{2}$  feet from the public side walk

Enclosed you will find 2 pictures one of the existing awning at 40 Washington ave and a picture of the front of 28 Washington ave

In closing the reason for the awning for 38 Washington ave is to create some continuity between silly's and sillies with a twist

The awning to be built 38 Washington ave is being built for the owner of the property. She is also the owner of silly's with a twist which is the current business located at 38 Washington ave

Owner is Michelle Kelley
