Re General Building Permit Application
51 Washington Ave

Applicant

John Dorvee
31 Elsmere Ave
So Portland, ME
207-317-1379

Proposed Use

Storage and bottling of honey

Square Footage

960 sqft

Existing and proposed fire protection of structure

The proposed structure is a build out within existing warehouse space that is used for the same purpose by another business

Proposed structure has an open floor plan with 8' walls and open ceiling. Therefore covered by existing overhead sprinkler system.

Proposed structure has only open doorways, means of egress are consistent with current use.

Fire extinguishers will be placed in the bottling area and inside the honey storage room.

Travel distance from most remote point in buildout is 50' to nearest exit.

Exit signs, emergency lighting provided by existing layout visible inside buildout.
