Attachments: McMaster-Carr - Oval Threaded Connector with Large Opening, Type 316L Stainless Steel, 3:16" Diamete.pdf

We will be using 2 stainless steel carabines each with 880lb work load. I have attached the PDF below let me know if you have any more questions.

Thank you
Kit

That is fine, I can use the rest of the existing application. One last thing - do you have the hardware/attachment details for how the sign will be attached to the bracket? We will need that to finalize the permit. Your sign maker can probably provide you this info.

Thanks,
Chris

Hi Chris,

We have decided to go with the blade sign. Attached below is the proposal with just the blade sign. Are you able to use the actual application that I sent you?

Hi Kit,
I am in the process of reviewing the above-referenced application that you submitted for signs at the Roustabout restaurant. I am contacting you because the signs as proposed cannot be approved under the City's ordinance. In the B-4 zone, the ordinance allows only one sign for each tenant, so we can only approve either the blade sign or the wall sign, but not both. Please let me know how you would like to proceed with your application, or if you have any questions about this ordinance.

Yours,
Chris
