RE: Property Reference: 189 Congress Street, Portland Maine

Mr. McPherson,

This letter is to inform you that as we spoke, I have completed a review of the two residential units located on the second and third floor of the above mentioned property. I have addressed many code violations as a result of improper electrical work that has been done over the years. I added smoke detectors, reworked connections and wiring and added and reworked / grounded junction boxes in attic. Please let me know if there is anything else needed for this property.

Respectively,

Matthew Flaherty
