John Crabill / Kim Crabill:

I live at 30 Lafayette Street in Portland, behind your apartment building at 27 North Street.

As soon as the City of Portland permit is approved, I plan to have the garage in my backyard demolished. Since the back of the garage is built at our property lines, I appreciate you telling your tenants to not park cars there for the demolition duration.

I'm planning to have a fence installed when the garage is down. The new section of the fence will match the fence on the other end of my property.

I'll contact you before the garage demolition will happen.

Thank you for your help.
