Hi Ann:

Thanks for your call today; hopefully your meeting with Ms. Zane went well. I wanted to reply and therefore let David & Jeremiah know that we spoke, and I support the position reached previously by Bob Leeman and David.

That is - that based on the information presented to date DPW can support a waiver of the driveway separation standard in favor of improving the driveway distance from the intersection.

A key note I'll make is this - we expect the new driveway to be separated from the abutting driveway, as shown on her sketch.

Jeremiah - we do need to evaluate the impact to on-street parking and apply our internal allowance process accordingly. We may tackle this today in our 1:30 if time allows.

Kathi
