

Please initiate a new permit for exterior renovations and alterations at 33 Turner Street. Please find plans and documents attached.

Previous permits have been issued for Phase 1 interior renovation under permit 2017-01263 issued 8/31/2017, and for porch replacement under permit 2017-01980 issued 1/2/2018.

The Phase 1 permit makes reference to creating a second unit. This is no longer the case. The plan has been scaled back to renovation and alteration of the existing single family within the existing footprint and on the existing foundation except for the permitted minor change to the porch.

Please contact me with questions or for additional information.
Thank you,

Ian Smith
