Subject: Fwd: Re: Pre demolition inspection for 32 Turner, #2014-00067

Is it all part of one permit? If so, I would keep it an alteration.

>>> Building Inspections 1/17/2014 12:16 PM >>>

So this should remain a demo permit since she's done all the work for a demo permit anyway? I'm just making sure in the future, I know what I'm talking about.

>>> Tammy Munson 1/17/2014 12:13 PM >>>

I would schedule one for that.

>>> Building Inspections 1/17/2014 12:06 PM >>>

This is the project description:

Demolition of the rear section of the building - approx. 16' x 19' and the rear enclosed entry - (internal demo under permit #2013-02663) - apply for separate permit to rebuild.

I have attached a photo of the part that is to be "demo"ed.

>>> Tammy Munson 1/17/2014 11:57 AM >>>

It really depends on the scope of work. Is it interior demo, small porch demo, etc?

>>> Ann Machado 1/17/2014 7:57 AM >>>

Brad,

I guess that it is Tammy's call.

Ann

Ann, I didn't think this was even supposed to be a demo permit, because it's not a complete structure demo, but removing a portion of an existing structure. I actually sent the applicant an e-mail stating this. and provided her a residential application. For this to be a **demo** permit (demo of complete structure) how would it be inspected if there will still be portions of the building still intact while being constructed? I was under the impression an inspection of a demo was to check on making sure utilities are shut off, etc?

Am I just confused?

-Brad.

Please schedule a pre-demolition inspection for 32 Turner Street, Permit #2014-00067.

Thanks.

Ann
