RE: 67 Merrill Street Residence Portland – NFPA 13D Residential Fire Sprinkler Proposal

Dear Jon,

Thank you for giving us the opportunity to provide you with fire sprinkler pricing for this project.

SCOPE: Install a complete Wet Fire Sprinkler System throughout the new residence. All fire sprinkler design, materials, fabrication, installation and testing to be in accordance with NFPA 13D and the Maine State Fire Marshal. There will be approximately 2,384 sq. ft. of fire sprinkler protected area. The occupancy will be Light Hazard for a one family dwelling. Work will begin at a new flanged water entrance inside the building installed by others.

INCLUDED:

- All permits, taxes, insurance, and fire sprinkler design drawings.
- Concealed sprinkler heads in all ceiling areas. Horizontal sidewall heads on the top floor.
- Control valves, double check backflow preventer, alarms, bells and all other necessary components for a complete system.

COST . . . (Eight Thousand Six Hundred Dollars) . . . \$8,600.00

NOT INCLUDED:

- Wiring or electrical work. Fire alarm or detection systems.
- Painting of piping or materials. Galvanized pipe or fittings.
- Fire protection for the Garage, as its not required per NFPA 13D.

NOTE: The owner is responsible to provide sufficient heat (min. 40° F) in all areas where water filled piping is installed.
