RE: 118 Congress Street – Portland, Maine
HVAC Federal Emission Requirements

The heating, ventilating and air conditioning equipment for this project will be residential equipment and because of the small capacity will fall below the Federal and State Emission reporting requirements.

This HVAC equipment will meet the Requirement of ASHRAE 90.1 -2007 Energy Efficiency Standard and the requirements of the International Energy Conservation Code (2009 IECC).

Sincerely yours,

Kurt Magnusson, P.E.
