**REQUEST FOR INSPECTION**

March 7, 2018

JACOB HALPERT  
74 ATLANTIC ST  
PORTLAND ME 04101

RE: **74 ATLANTIC ST**  
CBL: **016 E003001**

Dear Owner or Manager,

The City of Portland Fire Department requires routine inspections of multi-unit residential and commercial properties to ensure compliance with the fire and life safety codes. The above-referenced property is due for a routine fire inspection between **March 26, 2018 – May 15, 2018.**

You, as owner or agent for the above property, must contact the Fire Prevention Bureau at **207-874-8400** no later than **March 23, 2018** to schedule an inspection.

Inspection appointments are available Monday through Friday between **9:00 a.m.** and **4:30 p.m.** and will be conducted by a fire inspector. You or your agent must be present for the inspection and must allow the inspector access to all living or business units, as well as any common areas, basements, and/or attic space.

- Please ensure that all of your tenants receive appropriate advance notice.
- If you do not keep your requested appointment, cancel your appointment with less than 24-hours notice, or do not allow the inspector access to all areas of the building, you may be charged a civil penalty of \$150.00.

If I do not hear from you by **March 23, 2018**, I will consider it a refusal to allow an inspection, which is a violation of the City of Portland Code of Ordinances and state law, and is subject to civil penalties, potential legal action, and other remedies.

I appreciate your cooperation and your efforts to keep Portland residents and businesses safe.

Sincerely,

Captain John Brennan

Fire Prevention Bureau & Community Outreach Branch

## Items Commonly Examined During Inspections

The fire inspector will conduct a thorough inspection to ensure satisfactory life safety conditions on your property. The conditions to be reviewed include, but are not limited to:

- Condition of exits including stairwells and fire escapes
- Smoke alarms and CO alarms
- Smoke detectors/heat detectors
- Components of fire-resistive construction
- Grills on balconies
- Proper addressing of the building
- Proper addressing of the units
- Interior finish – type and condition of walls and ceilings
- Condition of basement
- Operation of exit doors
- Rating and operation of fire doors - self closing and latching
- Emergency lighting
- Exit signs
- Building exit discharge areas
- Fire alarm inspection sticker
- Knox Box containing current keys
- Records for fire alarm and fire protection systems
