In reference to permit #2017-00870 issued 06/08/2017 for the project on 39 Waterville Street, we are the contractor that will be doing the work. It will not be possible for construction to start before the permit expires therefore I am requesting an extension of ninety days. The project will be able to be started before the end of February however.

If there are any questions please contact me.

Thank you,

Charlie Carswell

Yes, that's fine. The extension is for 180 days from the expiration date. Please let them know and make a note of the date in UI. Thanks.
