Hi Jean – I have reviewed the revised plans as it relates to conditions of approval and I find the plans to be acceptable with the following comment.

- The applicant has provided a general construction management plan. I would note that the plan shall maintain either the existing sidewalk or a temporary sidewalk along Fore Street (without detouring pedestrians to the opposite side) during construction. A sidewalk detour will be permitted on Waterville Street and is subject to review of final details. The applicant shall provide a final plan details and proposed contractor parking specifics, for review and approval, prior to the pre-construction meeting.

If you have any questions, please contact me.

Best regards,

Thomas A. Errico, PE
