Katharine,

He only repaired 2 of the 4 violations from the 7/23/2016 inspection. I also found a new violation (Apartment doors not labeled).

Therefore, he has 3 violations open and due to the fact that we have to re-inspect again on the remaining 2 from the original inspection, I made him aware that he will have to pay a re-inspection fee.

He will call you when the work is completed; he seemed to think it would be relatively soon!

John
