CITY OF PORTLAND, MAINE
MEMORANDUM

TO: Jack Dexter, Assistant City Manager

DATE: March 19, 1969

FROM: Hugh Irving, Inspector

SUBJECT: Complaint 200 Anderson St.

No violations of zone or city codes.

Mr. DiSanto & Son have equipment parked here and it appears there is no danger of attracting rodents. Same applies to the burned out building. The burned out building is of brick and cement block. First floor windows are all boarded up and glass of second floor windows are all cleaned out. Neither areas appear to be a fire threat and are not a public eye sore except perhaps to the business establishments across the street.

CITY OF PORTLAND, MAINE
DEPARTMENT OF BUILDING INSPECTION

Portland Renewal Authority
389 Congress St.
Portland, Maine

Sept. 23, 1964

Gentlemen:

With relation to permit applied for to demolish a building or portion of building at #4.198-200 Congress St. it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

Albert J. Sears

Albert J. Sears
Director of Building Inspection

MEMORANDUM FROM DEPARTMENT OF BUILDING INSPECTION, PORTLAND, MAINE
200-202 Congress Street--Installation of automatic fire alarm system for John
Cubbins by Milliken Bros., installers

When such a system has been installed, the owner and lessee of the building are responsible for keeping the system in working order at all times so that the system may always be on guard to warn the occupants of the building in case a fire starts. To discharge this responsibility and to have good assurance that he will not be held either financially or criminally liable in case of injury or loss of life in his building due to fire, it is my belief that the owner and lessee must see to it that the alarm system is tested every twenty-four hours. This may be done by merely pressing very briefly the test button to see if the bells ring loud and clear.

Most of these systems have dry batteries for their power, and the batteries will deteriorate in time so that they will not ring the alarm bells satisfactorily, if at all. If the batteries are used briefly by this test every day, they will last longer than when tested less frequently.

Because this is a safety device whenever it is found that the bells do not ring loud and clear or any other defect appears in the system, the owner or his agent should notify immediately some predetermined party who has agreed in advance to come at once and service the system, whether day or night, Sundays or holidays.

It is recommended that the name of such a party and the address and telephone number be posted permanently on or in the control box of the system.

WMCD/H
CC: Mr. John Cubbins
202 Congress St.

(Signed) WARREN McDONALD
INSPECTOR OF BUILDINGS

CITY OF PORTLAND, MAINE

Department of Building Inspection

To: Oliver T. Sanborn
Chief of the Fire Department

From: Warren McDonald
Insptr. of Bldgs.

(date) February 19, 1953

Location: 200-202 Congress St.,
Owner: John Gubbins
Subject: Application for permit for
improvements at above location,
required by order of Chief of Fire
Department dated 2/10/49 & 5/24/51

While our two departments have done a good job of coordination under the Safety Ordinance--yours issuing the orders after inspection and ours issuing permits for improvements to be made,---

The confusion on the part of many people, who come in here, as to who has ordered them to do what,

The fact that on some jobs a permit has been issued, and the work done, only to have your inspector find that the situation did not then satisfy your order under the law,

And, the fact that you are permitted under the Building Code to exercise discretion as to details of means of egress in an existing building where there is no substantial increase in number of persons accommodated, while we must proceed under the precise terms of the Code unless deviation in this connection is approved by yourself--

leads me to the belief that each situation ought to be checked before any permits are issued, presumably by the inspector in your department who made the inspection on which the original order was based, to see:

1. If the work contemplated will completely satisfy the order.
2. To see, if possible, whether or not there may be some more economical way of satisfying the order, and, if so, to recommend that way to the owner.

To that end there is attached for your consideration applications for permits at the above location.

Remarks relating to this particular job:

Among other things please give consideration to the number, size and location of gangs.

WMcd/B

CITY OF PORTLAND, MAINE
DEPARTMENT OF BUILDING INSPECTION

Portland Renewal Authority
389 Congress St.
Portland Maine

Sept. 23, 1964

Gentlemen:

With relation to permit applied for to demolish a building or portion of building at #204 Congress St. (in rear) it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

Albert J. Sears
