
16. SOLID WASTE

16.1 Municipal Solid Waste Management

Solid waste disposal will not be provided to marina customers as part this phase.

16.2 Construction and Demolition Debris

As with any construction project, the proposed construction will generate construction waste and demolition debris (CDD). The construction contractor(s) will be responsible for hauling the CDD or contracting with a waste management service to haul the CDD from the project site. The contractor(s) will be fully responsible for handling, managing, and disposing of all waste generated by construction in accordance with Maine Solid Waste Management Regulations – 06-096 CMR 400-409. The contractor(s) will be bound by contract to dispose of all materials in full accordance with all applicable local state and federal regulations. Actual waste volumes will be measured at the time of construction.
