APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine, September 8, 1965

PERMIT ISSUED

SEP 10 1965

CITY of PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 58 Fore St. Use of Building Office No. Stories 4 Existing Building Existing
Name and address of owner of appliance The Portland Company 58 Fore St.
Installer's name and address Portland Gas Light Co. 5 Temple St. Telephone

General Description of Work

To install Gas-fired steam boiler G606(model 1) American Standard. (new installation)

IF HEATER, OR POWER BOILER

Location of appliance first floor boiler room Any burnable material in floor surface or beneath? none
If so, how protected? Kind of fuel? gas
Minimum distance to burnable material, from top of appliance or casing top of furnace 36"
From top of smoke pipe 36" From front of appliance over 4' From sides or back of appliance over 3'
Size of chimney flue see specifications Other connections to same flue none
If gas fired, how vented? power vent Rated maximum demand per hour 725,000
Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? yes

IF OIL BURNER

Name and type of burner Labelled by underwriters' laboratories?
Will operator be always in attendance? Does oil supply line feed from top or bottom of tank?
Type of floor beneath burner Size of vent pipe
Location of oil storage Number and capacity of tanks
Low water shut off Make No.
Will all tanks be more than five feet from any flame? How many tanks enclosed?
Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Height of Legs, if any
Skirting at bottom of appliance? Distance to combustible material from top of appliance?
From front of appliance From sides and back From top of smokepipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented? Forced or gravity?
If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Gas-fired steam boiler will be equipped with device which will automatically shut off all gas supply, in case pilot flame is extinguished.

To use gas. Co. gas

Amount of fee enclosed: 2.00 (\$2.00 for one heater, etc., \$1.00 additional for each additional heater, etc., in same building at same time.)

APPROVED:

Gentlemen:

Permit for installation of four outside above ground 100 gallon
L. P. Propane Gas storage tanks with vaporizer and pump, to be used with heat-
ing equipment being installed in the buildings at the above named location, is
issued herewith. Permit has been approved by the Fire Department subject to
the following conditions:

1. The tanks are to be located no closer than
25 feet to any building.
2. The vaporizer is to be at least 25 feet from
the nearest tank.
3. Tanks are to be spaced no less than 3 feet apart.
4. Tanks are to be supported in an adequate manner
on concrete blocks or cradles.
5. The installation is to be suitably protected against
physical damage and tampering.

Very truly yours,

Albert J. Sears

List of Equipment Needed:

- (14) Perfection-Schwank, Model JB2SPAL*
- (4) Thermostats, M.H. T631A
- (1) 300 CFM Loren Cook Wall Exhauster, Model 10010W
- (2) 300 CFM Loren Cook Wall Exhauster, Model 10010W
- (1) 400 CFM Loren Cook Wall Exhauster, Model 10015W

Heater Controls:

Heaters are "Spark-Pilot" ignition, 100% Shut-off and orificed for L. P. gas. (May be converted to natural gas by orifice change.)

Heater Capacity:

Each heating unit has rated input of 24,000 BTU/hr. System input is 337,000 BTU/hr.

Hanging Details:

All heaters are around building perimeter, distance from edge as indicated. All heaters are mounted horizontally (with burners tilted toward center of building) at height of 12' from floor.

Heaters may be suspended from light chain. Each unit weighs 27 lbs.

Electrical:

All connections are line voltage. Wall fans are interlocked with heater zones as indicated on drawing. It is suggested that override switches be installed for the fans which would allow use of these ventilators in summer independent of the heating system.

Mounting heights of fan units is suggested at as good a height as is practical under floor above.

Clearance from combustible material to be in accordance with manufacturer's specifications.

NON-CODED MANUAL
FIRE ALARM STATION

FEATURES:

- U L Listed
- Keylock for Test and Reset
- Positive Indication of Operation
- Surface or Semi-Flush Mounting
- Shock and Vibration Resistant
- Optional Terminal Block

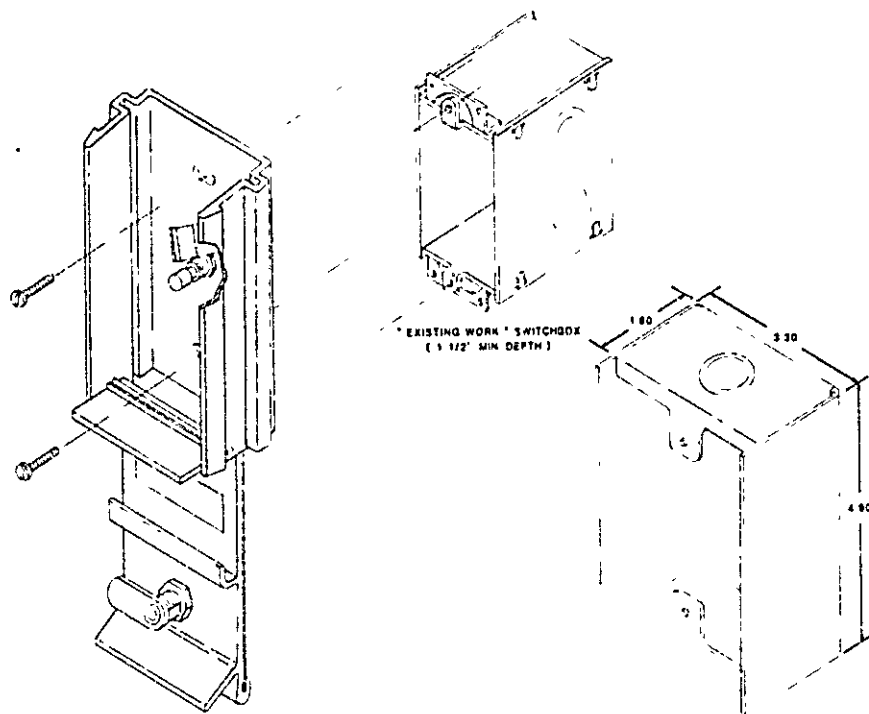

DESCRIPTION:
MS-6

The MS-6 series manual Fire Alarm Station is a non-coded single-action device which may be utilized for a variety of emergency signaling applications. The attractive red MS-6 series station is constructed of rugged aluminum with a key reset switch for positive resetting action.

OPERATION:

The Model MS-6 station is operated by pulling the actuation door forward which transfers the alarm switch. The actuation door is now locked in the readily observable "alarm" position. To reset the MS-6, a key (which is common common to the FCI fire alarm control cabinet) must be inserted and turned 1/4 turn clockwise, opening the station. Closing the station resets the alarm switch automatically.

Re: 58 Fore Street, Portland, Maine

Dear Sir:

Your application to construct a utility shed 21' X 22' has been reviewed and a permit is herewith issued subject to the following requirements:

- 1.) Building sprinkler system shall be modified to provide full protection of the space to be constructed. All sprinkler work to be done in accordance with N.F.P.A. #13 and building code permit.
- 2.) Doors for the utility shed to be in accordance with N.F.P.A. 101 Section 5-2.1.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services
