
MEMORANDUM

From: Nell Donaldson
Subject: Application ID: 2015-169
Date: 4/28/2016

The Fire Dept. has reviewed the final drawings and documents, the applicant has addressed my questions / concerns. I remember discussion in the pre-application phase that there might be connectivity between Thames and Fore by extending the drive-up to Thames. The Fire Dept. would very much be in favor of such a proposal.
