February 4, 2004

TO: City of Portland
Department of Planning & Development
389 Congress Street
Portland, ME 04101

The Committee to Restore the Abyssinian would like to receive approval to establish a temporary mobile office unit in the drive way of our property at 73-75 Newbury Street in Portland. The unit will be removed prior to construction (anticipated during the 3rd quarter of this year) and the required site plan review and associated paper work will be submitted prior to any work inside or outside of the building..

The mobile Unit - HT-836 will provide a temporary office for the administration and use by the Abyssinian Restoration Committee and also provide a public source to respond to questions about the project to all interested parties. The unit will be significant to the beginning of our capitol campaign to help raise the necessary funds for the project prior to re-construction.

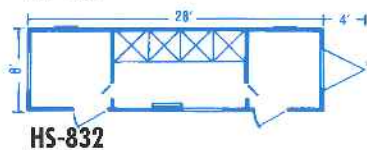

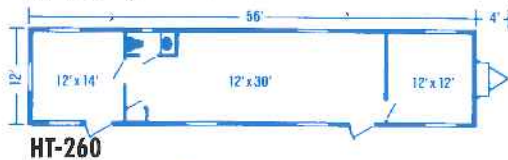

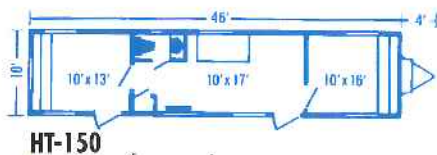

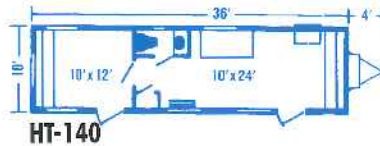

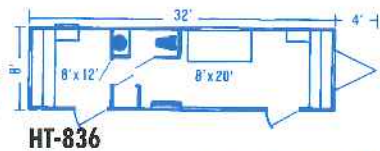

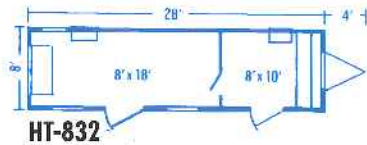

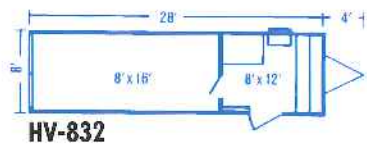

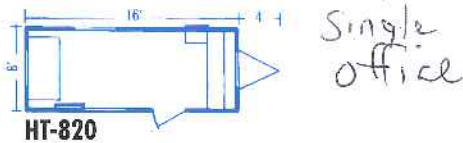

We are requesting an exemption and believe our qualifications on the associated form meets the criteria for the city. A sketch is attached of the property and a detailed advertisement showing of the mobile office unit we would like to place on the property.

Sincerely,

Leonard W. Cummings, Manager
Abyssinian Building Restoration
