---

Hi Rob,

I met with Tammy about the waiver, and we agree to approve this based on IBC Sec. 104.10 Modifications.

The fire department has concluded their review and has approved the foundation permit. I will prepare the permit documents for issuance, it should be available by 4pm today.

I have a clarification regarding the height of the building, this won't hold up the permit. The cover page states the height of the 5A building at 57.75'. Is this measurement from the average grade, and is this the total height of the building?

Thanks,

Jeanie

Rob,

Can you please contact code enforcement-Jeanie Bourke at 207-874-8715? She has a couple questions regarding the building classifications, 1A, 1B and 5A. Thank you.
