Automatic Fire Sprinkler Compliance Letter

Dear Mr. Seiferth,

This letter serves as Dean & Allyn's statement of compliance regarding the design and installation of the automatic fire sprinkler system for the referenced project. All work provided was done in accordance with the requirements of NFPA-13 2016 and local & state codes.

The subject work primarily involved design and installation to extend an existing automatic fire sprinkler system into a new building addition attached to the referenced property. The newly extended system employs wet automatic coverage with floor control stations to zone each floor level independently.

At the time of this statement, the sprinkler system installation has been fully completed and left in service.

Sincerely,

**Dean & Allyn, Inc.**

Derek Narvaez
