Inspection officials-

I submitted the attached sign application materials on June 26th but have not received a confirmation as of yet.

I appreciate your advisement of the status of the application and am ready to submit payment when requested.

Thank you,

Markos

This email includes a copy of the Liability certificate. It was not included in my previous email.

City Inspections Office-

Please find attached all Sign Application documents for Ten Ten Pie LLC for the retail store at 171 Cumberland Ave in Portland.
The application is for the installation of one 36" diameter plexiglass facing on an existing 36" round aluminum sign frame mounted on the front of the building. The plexiglass will contain an image of the Earth and will not contain any text.

This electronic file includes:

- written permission from the property owner
- a sketch of the lot with buildings, and sign location.
- a sketch of the image of the Earth that will be on the plexiglass face and a photo of the existing sign frame
- a sketch of the mounting detail
- A Certificate of Liability naming the City of Portland is also included.

Please note that there is no existing signage.

The sign will be located 87" above sidewalk grade on a front facade of 21' by 12'. It will be backlit with T5 fluorescent bulbs utilizing the existing hardware. The plexiglass face will be mounted to the existing sign frame with an aluminum bracket utilizing metal screws.

I will be calling to make payment with a credit card the following day.

Please contact me if you have any questions or concerns.
