Dear Shukria-

A while back I met with you at City Hall to discuss Redfern Properties proposal to develop 70 Anderson St., building ten townhouses. You were generous with your time and went through everything with me, and I came away having learned a lot.

I thought that I would follow up with you to tell you that I met with Jonathan Culley yesterday for about an hour to discuss parking for his townhouses. He was gracious and welcoming, responding clearly to all of my questions and concerns. I left the meeting well-informed, and I now feel that he and his company are responsible planners trying to the best for the neighborhood at both 70 and 89 Anderson St..

My wife and I, at 25 Anderson St. look forward to the completion of both properties and feel that Redfern Properties are doing well by our evolving neighborhood and the city of Portland.

Sincerely,

Steve Davis
