Building Demolition Notification Form (BDNF)

Important Notice: Maine law requires the filing of this Building Demolition Notification Form prior to demolition of any building except a single-family home

1) Building owners are required to provide this notification of the demolition of a building to the DEP at least 5 working days prior to the demolition. This notification is not required before the demolition of a single-family residence or related structure (e.g., garage, shed, barn). It is also not required if previous notification of the demolition has been provided to the DEP as part of an asbestos abatement project notification. *Demolition* means the tearing down or intentional burning of a building or part of a building.

2) Prior to demolition, building owners must determine if there is any asbestos-containing material(s) (ACM) in the building. An "asbestos inspection" by a DEP-licensed Asbestos Consultant is required for all buildings except single-family homes and residential buildings with 2-4 units built after 1980. In lieu of an asbestos inspection, pre-1981 residential buildings with 2-4 units can be surveyed to identify possible ACM by someone knowledgeable about ACM, such as a code enforcement officer or building inspector. If materials that may contain asbestos are found, then you can either assume they are ACM or hire a DEP-licensed Asbestos Consultant to test the materials.

3) Whenever more than 3 square feet or 3 linear feet of ACM is identified, the ACM must be abated in accordance with the Maine Asbestos Management Regulations by a DEP-licensed Asbestos Abatement Contractor. This includes materials presumed to be ACM. Check www.state.me.us/dep/rwm/asbestos/index.htm for a listing of asbestos contractors.

Prior to issuing a local demolition permit, the DEP requests that municipalities have applicants for municipal demolition permits complete this form and fax it to the DEP at 207-287-7826. Municipalities should not issue local demolition permits if the required asbestos inspection or survey has not been performed and identified ACM removed.

Were asbestos-containing materials found? yes no no inspection or survey required (post-1980 2-4 unit)

property address:

209 PEARL ST
 PORTLAND, ME

Building Demolition Notification Form (BDNF)

Important Notice: Maine law requires the filing of this Building Demolition Notification Form prior to demolition of any building except a single-family home

1) Building owners are required to provide this notification of the demolition of a building to the DEP at least 5 working days prior to the demolition. This notification is not required before the demolition of a single-family residence or related structure (e.g., garage, shed, barn). It is also not required if previous notification of the demolition has been provided, to the DEP as part of an asbestos abatement project notification. *Demolition* means the tearing **down** or intentional burning of a building or part of a building.

2) Prior to demolition, building owners must determine if there is any asbestos-containing material(s) (ACM) in the building. An "asbestos inspection" by a DEB-Licensed Asbestos **Consultant** is required for all buildings except single-family homes and residential buildings with 2-4 units built after 1980. In lieu of an asbestos inspection, pre-1981 residential buildings with 2-4 units can be surveyed to identify possible ACM by someone knowledgeable about ACM, such as a code enforcement officer or building inspector. If materials that may contain asbestos are found, then you can either assume they are ACM or hire a DEP-licensed Asbestos **Consultant** to test the materials.

3) Whenever more than 3 square feet or 3 linear feet of ACM is identified, the ACM must be abated in accordance with the Maine Asbestos Management Regulations by a DEP-licensed Asbestos Abatement Contractor. This includes materials presumed to be ACM. Check www.state.me.us/dep/rwm/asbestos/index.htm for a listing of asbestos contractors.

Prior to issuing a local demolition permit, the DEP requests that **municipalities** have applicants for municipal demolition permits complete this form and fax it to the DEP at 207-287-7826. Municipalities should not issue local demolition permits if the required asbestos inspection or survey has not been performed and identified ACM removed.

Project No.: 05-6986**LEAD WIPE SAMPLE ANALYSIS SUMMARY**

Lab No.	Client No.	Description / Location	Area Sampled (sq)	Concentration (µg/sq)
2444486	698635	Paint 2nd Flr Warehouse Roof Support Post	1.00	160.0

NATIONAL LEAD LABORATORY ACCREDITATION PROGRAM (NLLAP)

AIHA-ELPAT-NIOSH No. 100188 / NYSDOH-ELAP No. 11021

Analysis Method: EPA SW846 (7430/7421) "Standard Method To Test For Low Concentrations Of Lead In Soils, Sludges And Sediments By AAS"

Comments: Regulatory limit varies by surface location (EPA/HUD guidelines). Unless otherwise noted, results assume one square foot sampled. Method requires substitution of blanks. IATL assumes that all of the sampling methods used data upon which these results are based, have been accurately supplied by the client. Method Detection Limit (MDL) per EPA Method 4 (CFR Part 196 Appendix B, Reporting Limit (RL) based upon Lowest Standard Determined (LSD) in accordance with AIHA-ELAP policies. LSD= 0.2 ppm MDL=2.0 µg/sq RL=10.0 µg/sq (based upon 1.0 square foot sampled). The EPA 403 Final Rule (40 CFR 743.63) requires that all wipe samples of settled dust shall be collected using a wipe that meets ASTM E1792.
