Subject: Fire Alarm System Review for 161 Marginal Way, Portland Maine

I performed a review of the fire alarm system design drawings for the renovations to 161 Marginal Way, Portland Maine. The submittal package included the floor plans, riser diagram, battery calculations, and cut sheets.

I found that the revision, dated April 6, 2015, of the fire alarm system design to be code compliant and adequately support the fire detection, alarm and notification requirements of this facility.
