Jeff et. al.,

Please find attached the elevations for midtownThree related to the Board's condition of approval requiring greater articulation of that structure.

Renderings will follow when complete so this is purely an effort to allow you a preliminary review.

If there is anything else you might need at this time regarding formal submission requirements, please let me know. Typically as you know these submissions are handled by our engineers but whereas this is simply satisfaction of an outstanding condition we are hopeful this email suffices.

Patrick
