

LEED MATERIALS DOCUMENTATION SHEET

LEED™ FOR HOMES MID-RISE GREEN BUILDING RATING SYSTEM

SUBMITTAL #:

NO LEED INFORMATION REQUIRED IN SPECIFICATIONS FOR SUBMITTAL (MRC2.2 ONLY)

Instruction to Contractor / Installer: Complete the following information for all appropriate LEED Credits as required in the project specifications. This sheet is in addition to, not a replacement for, other required submittal information. Attach all requested information as defined in the Submittal Requirements for each credit.

Contractor / Installer
Name:
Company:
Address:
E-mail (Contact):

LEED MR Credit 2.2 (a) - Recycled Content

Submittal Requirements: Product data indicating percentage by weight of post-consumer and pre-consumer recycled content for products having recycled content

Material Name and Manufacturer	% Post-consumer Recycled Content	% Pre-consumer Recycled Content

LEED MR Credit 2.2 (a) – FSC Certified Wood Materials

*Submittal Requirements: Chain-Of-Custody (COC) certificate numbers for each FSC Certified wood product purchased. **Note: Invoices with material cost and COC numbers are required in final LEED Documentation.***

Product Name and Vendor	Wood Component %	FSC Certified Wood Percentage of Wood Component	FSC Chain of Custody #

LEED MR Credit 2.2 (b) - Low-Emitting Materials: Adhesives & Sealants

Submittal Requirements: Product data for construction adhesives and sealants applied onsite and inside the weatherproofing system, including printed statement of VOC content.

Manufacturer and Product Name	VOC g/L	LEED VOC limit g/L

LEED MR Credit 2.2 (b) - Low-Emitting Materials: Paints & Coatings

Submittal Requirements: Product data for interior paints, paint primers and coatings applied onsite and inside the weatherproofing system, including printed statement of VOC content.

Manufacturer and Product Name	VOC g/L	LEED VOC limit g/L

LEED MR Credit 2.2 (b) - Low-Emitting Materials: Flooring Systems

Submittal Requirements: Product data for flooring systems, including printed statement of VOC content complying with Carpet and Rug Institute’s Green Label Plus Indoor Air Quality Test Program, or the FloorScore standard, or an approved equivalent.

Manufacturer and Product Name	Compliant with: Green Label Plus, Green Label, Floorscore, SMAQMD 1113, or SCAQMD 1168

LEED MR Credit 2.2 (b) - Low-Emitting Materials: Composite Wood & Agrifiber Products

Submittal Requirements: Product data demonstrating that any composite wood, agrifiber products and laminating adhesives used in the building do not contain added urea-formaldehyde resins.

Manufacturer and Product Name	Contains Urea-formaldehyde? (No)

LEED MR Credit 2.2 (c) - Regional Materials: extracted, processed, and manufactured

Submittal Requirements: Product data/ letter indicating location of material manufacturer and extraction.

Material Name and Manufacturer	Harvest/Extraction Distance (miles)	Percent Compliant (by weight)	Manufactured Distance	Percent Compliant (by weight)
