Conditions of Approval:

Zoning

1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
2. As discussed during the review process, the property must be clearly identified prior to pouring concrete and compliance with the required setbacks must be established. Due to the proximity of the setbacks of the proposed addition, it may be required to be located by a surveyor.
3. This property shall remain a ten (10) residential family building. Any change of use shall require a separate permit application for review and approval.
4. It is understood that the basement laundry will only be for building tenants. This laundry is not being approved for a commercial enterprise for the general public.

Building

1. Application approval based upon information provided by the applicant or design professional, including the revised plans dated received 7/26/12. Any deviation from approved plans requires separate review and approval prior to work.
2. This permit allows the new entry to be a maximum of 50 SF. This is being achieved with a dimension of 3'10" x 13'. With an 8' foundation width this will comply with the minimum 36" stair width.
3. The laundry room shall have fire suppression and all penetrations shall be smoke sealed.
4. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
5. The installation of the washer and dryers shall comply with the plumbing and mechanical codes.

Fire

1. All construction shall comply with City Code Chapter 10. The occupancy shall comply with City Code Chapter 10 upon inspection.
2. The laundry room shall be smoke tight and the door from the laundry room to the remainder of the building shall be self-closing with a seal around it. The laundry room shall be protected with sprinkler heads in accordance with NFPA 101:9.7.1.2.
3. This permit is being approved on the basis of the plans submitted. Any deviation from the plans would require amendments and approval.

4. All outstanding code violations shall be corrected prior to final inspection.
5. Any Fire alarm or Sprinkler systems shall be reviewed by a licensed contractor(s) for code compliance. Compliance letters are required.
6. A separate Fire Alarm Permit is required for new systems; or for work effecting more than 5 fire alarm devices; or replacement of a fire alarm panel with a different model. This review does not include approval of fire alarm system design or installation.
7. A separate Suppression System Permit is required for all new suppression systems or sprinkler work effecting more than 20 heads. This review does not include approval of sprinkler system design or installation.
8. Fire extinguishers are required per NFPA 1.
9. All means of egress to remain accessible at all times.
10. Any cutting and welding done will require a Hot Work Permit from Fire Department.
11. Walls in structure are to be labeled according to fire resistance rating. IE; 1 hr. / 2 hr. / smoke proof.
12. A single source supplier should be used for all through penetrations.
