

Plan of New Canopy Roof at Function Room Entrance
 (see SK3 for elevation and section)

Canopy supported by steel angle frame:
 6" x 4" x 3/8" steel angle bolted to brick,
 with two 6" x 4" x 3/8" steel angles welded on at right angles
 cantilevering out to face of canopy.

Line of new roof canopy above.
 Plan to match plan of adjacent bay window roof,
 with face of canopy to align with face of brick pilaster.
