

Blade Awning attachment for Longfellow Books-

We will utilize a 1x1x1/8th aluminum angle secured to the building w/appropriate anchor (Dependent on what is discovered behind the tile) wood lags/ masonry wedge anchors. The top 1x2 bar of the awning will be bolted to the angle that is fastened to the wall.

The lower attachments will be three support arms 1x1x1/8th that will be welded to a 1x3x1/4th flat bar on the awning. The arms will utilize appropriate anchors for attachment.
