Hi Rob,

These are permit applications for two renovations (units 5 and 23 ) we are doing at 312 Congress Street. We plan to replace the old windows which are no longer operating correctly with white vinyl replacement windows, same as the ones you had approved on the other side which faces the parking lot. The windows on these units face the buildings on Hampshire Street and towards the rear of the building away from Congress street (opposite side as the parking lot which runs along Franklin) and are not visible to the public, there is a small strip between the properties, but no alley and the buildings are only about 10 ft apart so cannot be seen from any street.

Please let me know if you have any questions.

Thanks,

Dan

Hi Teresa,

I've signed off on both these permits for zoning. They still need codes approval before the permit can be issued; they will review it as soon as they can. In addition, because this project involves an exterior change (new windows) and is in a historic zone, it will need a historic preservation sign-off. I am attaching the invoices for this review.

Thanks,  
Chris

Hi Christina,

This is the info for #23. I will send you #5 in a second. Both apartments are waiting approval from zoning and building inspections.

Thanks,

Teresa
