Please accept this note as a response to the fire regulations notice sent to me on January 25, 2008. I accept and acknowledge the stipulation to have fire doors installed at 80 -82 India Street on the second and third floor apartments.

The work will be completed no later than April 30, 2008. I would like to schedule a site visit to confirm the completion of the request and show compliance to the fire code. If you could let me know your availability after the 30th or I will certainly follow up when it is finished to schedule an appointment.

-Jason Kendeigh
