RE: 66 Pearl Street  
CBL: 028 K002001, Building Permit #2013-01388

Dear Matt:

I am in receipt of your letter requesting an extension of the above referenced building permit to perform work at the above mentioned property. This permit was issued on August 26, 2013 and the International Building Code requires that work commence within 180 days of the approval date. This permit has lapsed beyond the required start date.

The International Building Code does allow an extension of time if justifiable cause is demonstrated. Based on the information you provided regarding the owner's ability to secure a reputable tenant at this location, an extension is justifiable. This office is granting an extension of the start date of the construction of no more than 90 days from the date of this letter, September 3, 2014. If the work does not commence by this date, the permit will be considered expired.

If it is apparent that this new extension date cannot be met, a similar request can be submitted; however this must be done prior to September 3, 2014.

Please let me know if you have any questions.

Sincerely,

Jeanie Bourke
