Dear Mr. Levine

Thank you for taking the time to consider our request for alternate outdoor seating proposals.

We are naturally very disappointed with the city's refusal to grant us street space for outdoor dining.

I did in fact contact Mr. Hyman as you requested but that was prior to your last letter which seems to infer that all our attempts will be in vain because they will be opposed.

Therefore, I humbly request that you will please keep us in mind for next year's planning budget, as far as widening the sidewalk directly in front of our establishment on Silver St to match the sidewalk width across the street, respectively to 9', which will allow us outdoor dining and also to consider changing Silver St, between Milk and Fore, to one way continuous.

Additionally, we also request that the city return the outdoor dining fee that we submitted by check, and which was cashed, in the amount of \$440.00 as soon as possible, because you rejected our permit.

Again, Thank You. I will be in touch again in January regarding this matter because it remains an essential revenue stream for our business to continue operations in Portland.
