2. Douglas Timm who owns the property has signed the attached telefax giving us the OK to hang the sign.
3. Attached are two sketches of the lot and building showing measurements and placement of the new sign.
4. Attached are two digital photographs onto which a prototype sign has been superimposed to provide you with an idea of how the new signage will appear. The proposed location of the sign is indicated. This is complemented by the sketch which illustrates the same.
5. Computation:
 - a. The area of the sign is 18 ft².
 - b. See attached drawing for exact positioning of the sign.
6. Attached is a rendition of the sign. The sign, which is made of vinyl and weighs approximately 5 pounds, will be hung between two metal posts which will be bracketed to the brick siding by bolts. There are boltholes that will be reused for this purpose. A sign currently exists in this area which will be removed and not relocated to an alternate position. There exist two flood lamps that will be used to illuminate the sign. The sign itself will not be electrified.
7. There will be no awning and this is, therefore, not applicable.

MEMORANDUM

DATE: Wednesday, June 27, 2001
 TO: Doug Timm
 FROM: Joe Chandler/Tom Yordprom
 SUBJECT: NEW SIGNAGE AT SIAM CITY CAFÉ

Doug,

As you know, Tom and I are interested in creating better, more visible signage for Siam City Café. On the following pages, I have generated prototype pictures of a new sign we would like installed for the restaurant. Would you kindly review these illustrations and let us know if we can proceed with this idea.

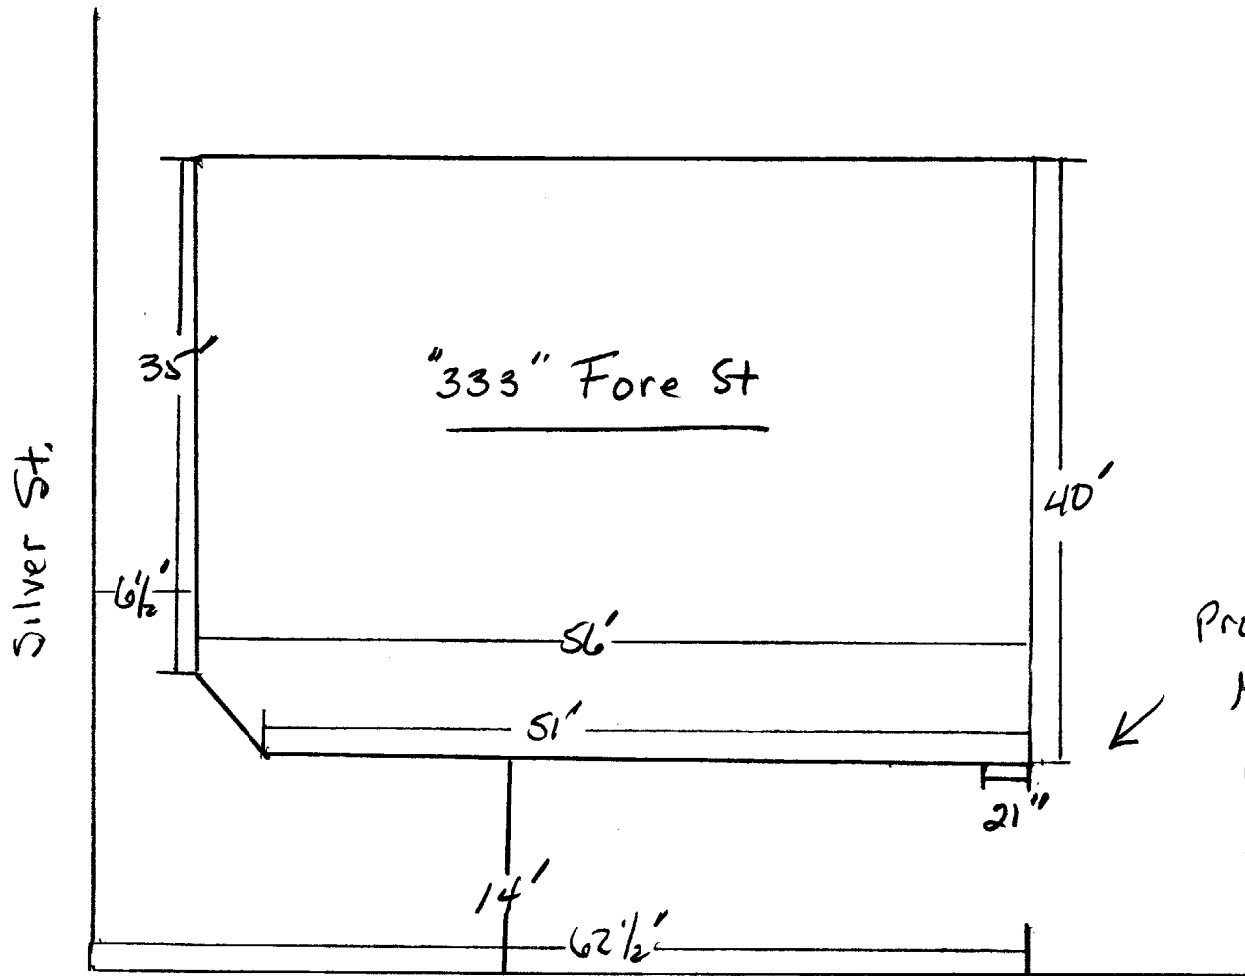

Currently, our signage has proven to be inadequate. We need to have a more clearly visible sign but we wish to remain within the character of the building as well as the Old Port. The signs depicted on the illustrations are currently in use on Market St. at the Casco Bay Brew Pub restaurant. Our sign will appear as show below.

Approval for new signage:

[Handwritten Signature]

 Douglas Timm, Building Owner.

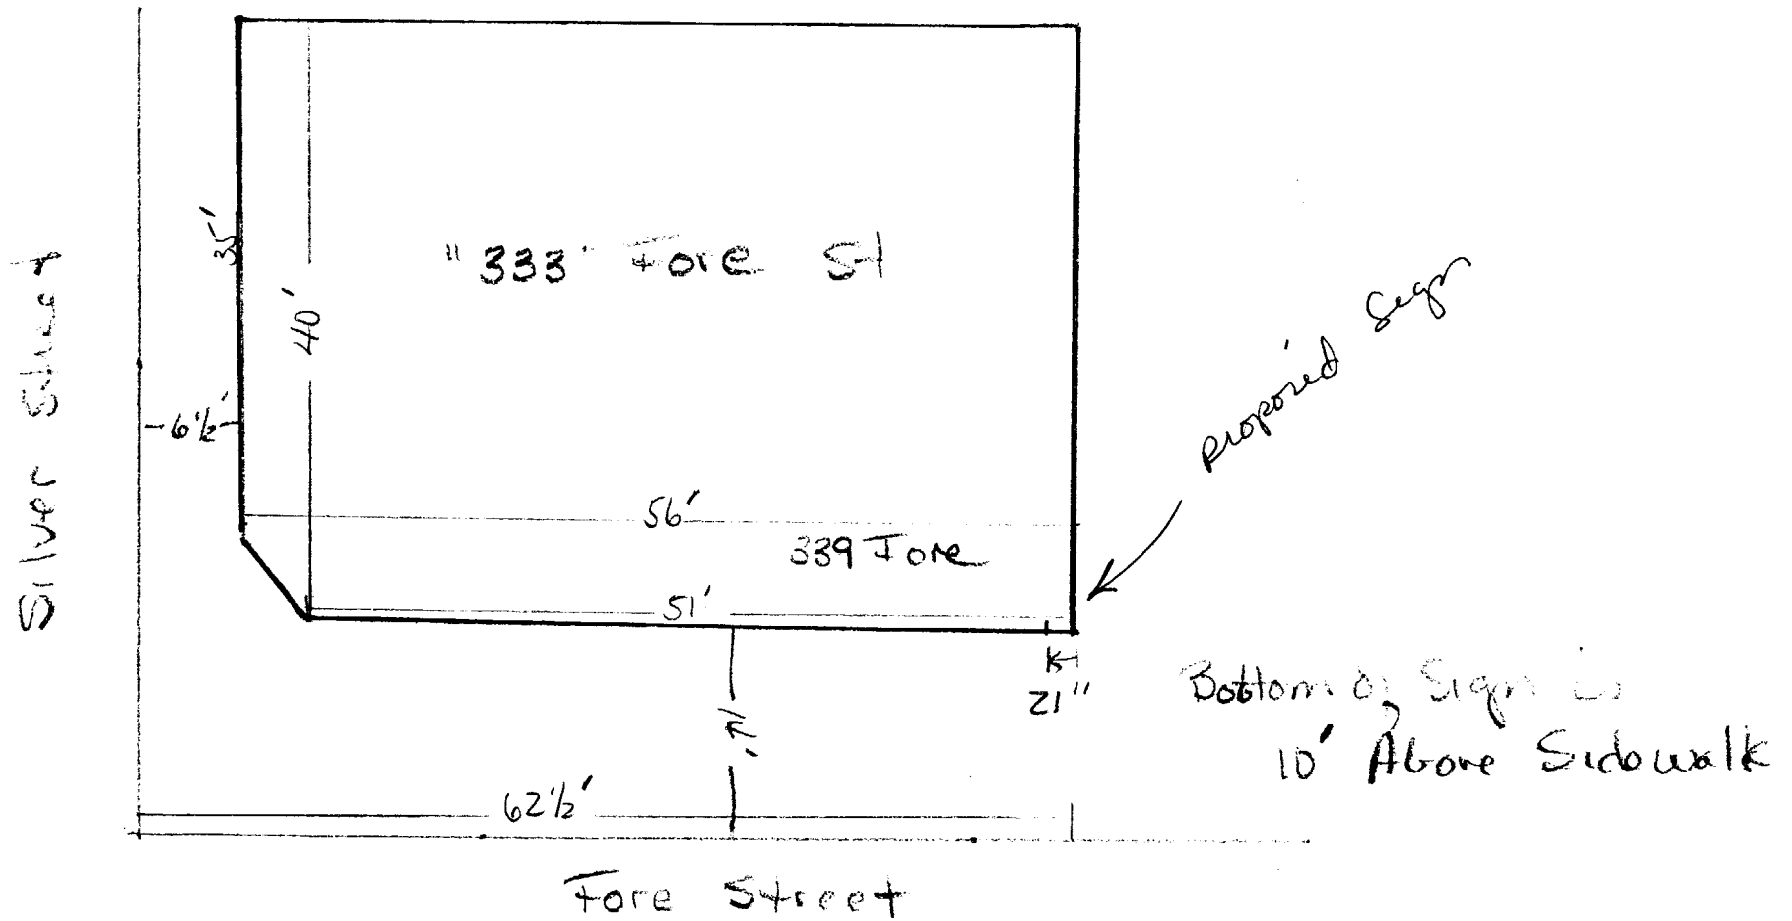

Proposed sign will be recessed in from right side of building by 21". Its lower edge will be 12' above sidewalk
