AUGUST 13, 2009

PROPOSED 2ND FLOOR PLAN
1/4"=1'-0"

PROPOSED 1ST FLOOR PLAN
1/4"=1'-0"

Correct plan save staircase. Fire escape existing in back and Unit #4 has access to this. This plan only shows box of Unit #4. Watson & Worthley (Former Tenant) may have their permit plans on file with City. I did not get plans from prior owner of W&W when purchasing unit. Other first floor unit approved within last five years for same use as forgen.

Is this stair down existing or not?

No Staircase here nor was there one. This was proposed when building was turned into condos with the idea of residential conversion on upper levels. This was done by prior owners and not after I took ownership of any units.

This is a separate entrance / staircase that exists and goes to my office and other Tenant. Leads to Units 5, 6, & 7.
