MEMORANDUM FROM DEPARTMENT OF BUILDING INSPECTION, PORTLAND, MAINE

Location: 96-140 Middle St.,

Before tanks and piping are covered from view, installer is required to notify the ~~Fire Dept. Headquarters~~ of readiness for inspection and to refrain from covering up until approved by the ~~Fire Dept. Headquarters~~
(3)

These tanks of 1000 gallons capacity are required to be of steel or wrought iron no less in thickness than #10 gauge; and before installation are required to be protected against corrosion, even though galvanized, by two coats of tar, asphaltum, or other suitable rust-resisting paint, and special protection wherein corrosive soil such as cinders or the like.

Pipe lines connected to underground tanks, other than tubing and except fill lines and test wells, must be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

Owner and installer will have to bear the responsibility for the structural capacity of the tank to support loads from above such as heavy motor trucks.

If tank will be so located as to be subjected to the action of tide water or "ground" water, adequate anchorage or weighting must be provided to prevent "floating" when tank is empty or nearly so.

CITY OF PORTLAND, MAINE
DEPARTMENT OF BUILDING INSPECTION

SEP 11, 1956

Portland Redevelopment Authority

Copy to: Health Director

Gentlemen:

With relation to permit applied for to demolish a building or portion of building at 94-96 Middle Street it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

Warren McDonald

CITY OF PORTLAND, MAINE
DEPARTMENT OF BUILDING INSPECTION

February 26, 1957

Copy to: Health Director

Portland Redevelopment Authority
City Hall

Gentlemen:

With relation to permit applied for to demolish a building or portion of building at 108 Middle St. it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

Warren McDonald
