To: Christina Stacey <cstacey@portlandmaine.gov>, Mike Mathieu <mike@neokraft.com>

Good morning Stacey,

I have calculated that each fascia is approximately 7,800 sq. ft. This is based on a 6 story building. Each set of letters will be 120 sq. ft.

If you have any other questions, please feel free to contact me again.

Thank you,

Patrick

Subject: Bernstein Shur signs - question

Hi Mike and Patrick,

I'm reviewing the sign permit application for Bernstein Shur and had one question. Can you provide an estimate of the actual facade area (length x height) for each of the two facades that will have signs placed? The maximum sign size is 5% of the facade area, which I am quite certain these signs will meet, but I need the actual numbers for confirmation. Didn't see them anywhere in the submitted application materials.

Thanks,
Chris
