Please find attached a permit application for the property located at 80 Middle Street and referred to as 80 Middle Street Building. The scope of this permit application includes the installation of a new addressable fire alarm panel in place of an existing conventional panel to monitor the sprinkler system. Additionally, we are adding applicant notification in the newly created basement space for which there is an existing building permit. Please contact me with any questions at 207-846-3350.

Sincerely,

Michelle Perkins, Operations Manager
