#### 7 CONSTRUCTION MANAGEMENT PLAN

The following information is provided in accordance with the City of Portland Code of Ordinances Chapter 14 Land Use, Section 14-527(g)(1).

## 7.1 CONSTRUCTION MANAGEMENT PLAN

Flagg Partners, LLC is seeking to commence construction during the summer of 2018 and complete work by the fall of 2019. The construction will involve site work and new building construction. The attached construction plan outlines the anticipated timeline and sequence of activities.

## 7.2 ATTACHMENTS

**Construction Management Plan** 

## CONSTRUCTION MANAGEMENT PLAN

## Project:

208 Fore Street Portland, Maine 04101

## **Prepared By:**

Terradyn Consultants, LLC 565 Congress Street, Suite 310 Portland, Maine 04101

## **Applicant:**

Flagg Partners, LLC c/o Ted and Marianne Hovivian 515 East 79<sup>th</sup> Street, Apt 30E New York, New York 10075

## **Construction Manager:**

Wright-Ryan Construction, Inc 10 Danfort Street Portland, Maine 04101

#### A. Construction Management Principles

The following narrative provides an overview of the construction management principles that the Applicant and Contractor have identified to minimize impacts from the construction of 208 Fore Street, such as noise, vibrations, ground movement, truck traffic, and other construction related factors to the surrounding building and communities.

**B.** Performance Guarantees, Inspection Fees, Preconstruction Meeting, and Permits Prior to scheduling a preconstruction meeting and the issuance of any city required permits, the Applicant and Contractor shall meet all of the requirements contained in Section 14-530. Development review fees and post approval requirements and 14-532. General requirements and enforcement of Portland's Land Use Code.

Other permits, as applicable, include

- 1. Street Opening and Street Occupancy Permits: Construction activity in the public right-of-way are controlled by Chapter 25 and sewer and stormwater system connections are controlled by Chapters 24 and 32 of the Land Use Code. All required permits shall be obtained through the Department of Public Works and the requests shall conform with the approved construction management plan.
- 2. Blasting: Blasting, if required, shall conform with all measures of Article VIII. Regulation of Explosives in the Land Use Code and Section 3.7 Standards for Blasting and Regulation of Explosives in Portland's Technical Manual.

#### C. Construction Administration and Communication

The Applicant and Contractor will work diligently to implement a communication strategy as outlined below. The communication strategy is intended to ensure that all construction operations are performed in accordance with all agreements, ordinances and special permits applicable to this project. The Construction Manager will work closely with adjacent abutters, businesses and all parties informed, as far in advance as possible, of scheduled work, particularly work anticipated to cause significant noise, vibrations, or dust.

The following person is designated the Contact Person and will be available 24 hours in the event of an emergency:

## **CONTACT PERSON:**

John Ryan Wright-Ryan Construction, Inc. (207) 773-3625

Construction Signage shall be posted at the site with Contact Information for the Contractor. Construction site signage shall be removed at project completion.

## **D.** Construction Schedule

- 1. The contractor shall submit a schedule or time line for the construction project, including any Phasing, prior to construction.
- 2. Hours of Construction: Construction may occur during the daytime hours as defined in Section 17-18 of the City Code (Construction Activities) and Section 25-129 of the City Code (Noise, dust and debris).
- 3. Extended Hours or Night Work: Pursuant to Section 17-18, this section does not apply to emergency utility work or "Situations where the public works authority or the office of building inspections determines that the construction activity is of a unique character which cannot reasonably be completed or performed during the permitted hours and which is not of a recurring nature, provided that prior to engaging in such activity the contractor or his representatives gives notice of the time and scope of such proposed activity, the notice to be given in a manner approved by the public works authority."
- 4. Material Deliveries: Delivery of materials shall take place during the Hours of Construction listed above and shall be stored on the 208 Fore Street property in the locations noted on the Construction Management Plan (Sheet C-2.3).

#### E. Security & Public Safety

- 1. The Contractor shall erect the temporary barriers and access gates shown on the Construction Management Plan (Sheet C-2.3) with the intent of separating pedestrian and vehicle circulation from the construction site. Pedestrian traffic will be direct to the northern side of Fore Street as shown on Sheet C-2.3.
- 2. The Applicant or Contractor shall purchase and install a knox padlock from the Portland Fire Department to allow access by the Portland Fire Department at the primary access gate.
- 3. Structures undergoing construction, alteration, or demolition operations, including those in underground locations, shall comply with NFPA 1 Chapter 16. Safeguarding Construction, Alteration, and Demolition Operations.
- 4. Fire Safety Program. An overall construction of demolition fire safety program shall be developed. Essential items to be emphasized include the following:
  - Good Housekeeping
  - o On-site security
  - o Installation of new fire protection systems as construction progresses
  - Preservation of existing systems during demolition
  - Organization and training of an on-site fire brigade
  - Development of a pre-fire plan with the local fire department
  - o Rapid communication
  - Consideration of special hazards resulting from previous occupancies
  - Protection of existing structures and equipment from exposure fires resulting from construction, alteration, and demolition operations
- 5. Blasting, if required, shall conform with all measures of Article VIII. Regulation of Explosives in the Land Use Code and Section 3.7 Standards for Blasting and Regulation of Explosives in Portland's Technical Manual.
- 6. Any temporary security lighting fixtures shall feature full cutoff optics to reduce light trespass onto abutting properties.

## F. Construction Permitting and Traffic Control Plans

- Construction Activity in Public Streets: Construction activity in the public right-of-way is controlled by Chapter 25 Article VII of the City Code of Ordinances.
  Required licenses and permits, restrictions on activity, and fees & area are outlined in that Chapter. Rules and Regulations for Excavation Activity are available through the Street Opening Clerk at the Department of Public Works.
  At no time can construction activity including delivery vehicles close or block streets or affect public safety access without prior notice and approval of the Department of Public Works.
- 2. <u>Public Sidewalk Closures:</u> The Fore Street sidewalk in front of the site will be reconstructed as part of the proposed project. The Fore Street sidewalk reconstruction will include the bituminous sidewalk in front of the Simba Parking lot, the brick sidewalk in front of the site at 208 Fore Street, and the brick sidewalk extending from the site to the India Street-Fore Street

intersection. The sidewalk directly in front of the site will be closed for the duration of the building construction, and signage will be posted as shown on the Construction Management Plan. Short term closure of the sidewalk extending in front of the Simba Parking lot is expected to be up to a week. Short term closure of the sidewalk extending to the India Street intersection is expected to be up to three days, and a temporary pedestrian walkway will be provided to accommodate access to an adjacent gravel parking lot, as shown on the Construction Management Plan. While this temporary pedestrian walkway is in place for up to three days, approximately three parking spaces along the northern side of Fore Street will be posted for no parking to maintain two way traffic. Pedestrian traffic will be re-directed to the sidewalk on the northern side of Fore Street For the duration of the project.

- 3. Sewer and Stormwater: Sewer and stormwater system connections are controlled by Chapters 24 and 32 of the City Code of Ordinance. Required permits for new connections and/or abandonment of existing connections are available through the Street Opening Clerk at the Department of Public Works. Rules and Regulations for these utility systems are available through the City Engineer's office of the Department of Public Works and in Section II of the Technical Manual. Sewer and stormwater system connections within Fore Street are expected to result in reduced travel way width and reduced parking along the northern side of Fore Street for up to three days.
- 4. <u>Work within City Right of Way</u>: Construction activity that impacts the existing public street system must be controlled to protect the safety of the construction workers and all modes of the traveling public.

Construction operations shall provide for the safe passage of the public through or along the construction work zone. On a case-by-case basis, the Contractor may be allowed to close a street and/or detour a mode of traffic when absolutely necessary for safety. The Contractor shall employ the appropriate techniques and devices as called for in the latest edition of the Manual on Uniform Traffic Control Devices (MUTCD). In addition:

- Construction speed signing may be used as needed to slow traffic
- Traffic Control signs shall not be placed where they are an obstruction to bicycles or pedestrians.
- In extreme situations, flaggers may be required.
- Police detail is required at lighted intersections and may be requested by the City's transportation engineer or his designee.

All existing modes of travel in work zone area shall be accommodated if impacted by the activity. The safe passage of pedestrians, bicyclists, transit providers, and motorists are of equal importance when planning out the work

zone; no pre-existing travel mode may be eliminated without the express approval of the Department of Public Works.

- Traffic control bicycle and pedestrian facilities or routes through work zones shall be maintained until the bicycle and pedestrian facilities or routes are ready for safe operation. Traffic control will not be removed to allow auto travel at the expense of bicycle and pedestrians.
- Barrier systems utilized to separate the construction activity from the public street and /or sidewalk shall not inhibit sight distances, particularly for visibility of pedestrians and bicyclists.
- ADA compliance shall be maintained.

Use of public parking spaces or the blockage of any portion of sidewalk for the purpose of construction activity shall require an occupancy permit and appropriate fee as assessed by the Department of Public Works.

#### **G.** Site Management and Controls

The final Construction Management Plan will address maintaining the site in a safe condition and will include the following:

- 1. A solid waste dumpster shall be located on site for the disposal of trash and debris.
- 2. The Fore Street right of way shall be swept regularly to control the tracking of mud onto adjacent public streets.
- 3. Dust controls: The construction shall comply with Portland's requirements under Section 25-129 on Noise, dust and debris.
- 4. Noise: The construction shall comply with Portland's requirements under Section 17-18 of the City Code and Section 25-129 on Noise, dust and debris.
- 5. Rodent Control will be provided, if applicable, by a professional exterminator and consistent with Chapter 22 of the City Code.
- 6. Snow Removal: Pursuant to Section 25-173 Contractors to ensure a safe means of travel within the work zone.
  - 1) Snow/ice removal or commence automatically from (1" of snow and up) or Ice
  - 2) Remove snow as needed within the work zone, including parking spaces & not to block any driveways or site lines with the piles of snow.
  - 3) Clear all walks & ramps with the work zone
  - 4) Sand or Salt as needed
  - 5) Clear all basin or drainage to help snow melt
  - 6) This would include Monday-Friday Sat/Sunday/Holidays

#### H. Erosion Control and Preservation of Trees

- 1. The Contractor shall install all erosion and sedimentation controls as depicted on the approved erosion and sedimentation control plan prior to the preconstruction meeting for inspection by the City. The Contractor shall regularly inspect the control measures, no less than weekly and after significant storm events, and maintain any installed temporary or permanent stormwater management systems in working order. The Contractor shall document all inspection activities and corrective actions and be prepared to provide these documents for inspection by the City, Maine Department of Environmental Protection or the U.S. Environmental Protection Agency upon request.
- 2. The Contractor shall maintain all tree and landscaping preservation measures as depicted on the Landscape Plan (Sheet L-1) within the area of construction.
- 3. The storage of materials shall be located in the areas depicted on the Construction Management Plan (Sheet C-2.3) and avoid being located under/near trees.

#### I. Construction Staging and Deliveries

1. A location for material storage and lay down is shown on the Construction Management Plan. Additional areas may be utilized as available as long as they do not interfere with material deliveries.

#### J. Parking During Construction

1. Construction Parking: Construction workers shall utilize off-site parking for the duration of construction. Adjacent parking lots are paid or assigned parking, and not part of the project site.
