**Project description/scope of work (attach additional pages if needed):**

We are taking on part of the LL's original scope of work filed under permit #2016 02535 for core and shell. There are existing recesses in the upper portion of the brick facade along Middle street and wrapping around to market street which we will be filling in with a "thinbrick" product to match the existing brick on the building. This is work to have been done by the landlord, but we wish to change the material and detailing from a painted PVC panel to the thinbrick.
