Subject: Fire Alarm System Review for West Elm, 164 Middle St Portland, ME

I performed a review of the fire alarm system design drawings for the renovations to the West Elm tenant fitout at 164 Middle St, Portland Maine. The submittal package included the floor plans, riser diagram, battery calculations, and cut sheets.

I found that the revision, dated May 22, 2017, of the fire alarm system design to be code compliant and adequately support the fire detection, alarm and notification requirements of this facility.
