

Hi Chris,

Can you pass this on to Steve for me?

I've been in touch with him about us putting up a sign on the outside of the building just above the Five County Credit Union sign.

To complete our application to send to the city to obtain a sign permit we need a letter from you/Steve stating that you approve us putting up

the sign. We are going through Sign Design who Steve has already done business with. Roger, the owner of Sign Design, assured us we can

have them come fill the holes in the brick when it's time to take down the sign if we move in the future. They can make up a red colored

mixture to match the brick to fill the holes.

If Steve has further question he can contact Sign Design directly 856-2600 or call me at the office 699-5600.

Thanks,

Crystal

(PS. We already have the sign added to our insurance policy which is required by the city.)
