Re: Poppy's Fish Shack

Poppy's Fish Shack is a new restaurant being constructed at 6 Custom House Wharf. It is classified as an assembly occupancy with an occupant load rated at 286. The restaurant will be protected by an automatic fire sprinkler system. Both NFPA 101 and the IBC do not require a fire alarm system where the occupancy is fewer than 300, however with the building equipped with an automatic sprinkler system the fire alarm will supervise sprinkler devices and provide occupant notification. In addition the fire alarm system will provide partial coverage and fire door closing functions.

.

If there are any questions about the scope of work or any enclosed documentation please feel free to call or email at any time. Thank you
