**Job Name:** 100 Commercial Street ATM Enclosure  
**Location:** Portland, ME  
**Inquiry No.:** 14-766

**Attention: Mr. Tim Soley, East Brown Cow Management, Inc.**

Dear Tim:

Thank you for the opportunity to provide a proposal for the design, engineering and supply of the custom, point supported ATM Enclosure at 100 Commercial Street in Portland, ME.

Bellwether Design Technologies brings over 20 years of experience in the design, development and engineering of custom glazing projects. We have developed point supported and structural glass projects as well as custom skylights and curtain wall, throughout the US for world-renowned architects.

Our systems are always designed for the most efficient installation by our customers, and we bring complete engineering coordination and responsibility to the project, providing all required calculations and stamps.

This proposal includes our commitment to collaborate with East Brown Cow, Mark Mueller Architects, and all surrounding trades from this point through final design, engineering, fabrication and installation.

We look forward to a close working relationship with you and the rest of the project team members.

*Sincerely,*

**Brian Harrington**
