Project Name:	DiMillo's Marina Float Improvements	Project ID:	2016-171
Address:	144 Commercial Street	CBL:	30-H-1
Applicant:	DiMillo's Marina	Planner:	Nell Donaldson

Dear Mr.Lord:

On July 28, 2016 the Planning Authority approved a Level II site plan for your proposed float installation at DiMillo's Marina at 144 Commercial Street. The decision is based upon the application, documents and plans as prepared by Eco-Analysts, Inc., and submitted on July 15, 2016. The proposal was reviewed for conformance with the standards of Portland's land use code, including the site plan and shoreland zoning ordinances (Article V and Division 26, respectively).

SHORELAND AND SITE PLAN REVIEW

The Planning Authority found the plan is in conformance with the shoreland zoning and site plan standards of the land use code, subject to the following conditions of approval:

1. Prior to issuance of a building permit, the applicant shall provide evidence of a permit from the Army Corps of Engineers for review and approval by the Planning Authority.

The approval is based on the site plan submitted with the application dated July 17, 2016. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.

STANDARD CONDITIONS OF APPROVAL

Please note the following standard conditions of approval and requirements for all approved site plans:

1. **Develop Site According to Plan** The site shall be developed and maintained as depicted on the site plan and in the written submission of the applicant. Modification of any approved site plan or alteration of a parcel which was the subject of site plan approval after May 20, 1974, shall require the prior approval of a revised site plan by the Planning Board or Planning Authority pursuant to the terms of Chapter 14, Land Use, of the Portland City Code.
2. **Separate Building Permits Are Required** This approval does not constitute approval of building plans, which must be reviewed and approved by the City of Portland's Inspection Division. A building permit is required for the stair installation.

Planning & Urban Development Department

3. **Site Plan Expiration** The site plan approval will be deemed to have expired unless work has commenced within one (1) year of the approval or within a time period up to three (3) years from the approval date as agreed upon in writing by the City and the applicant. Requests to extend approvals must be received before the one (1) year expiration date.
4. **Inspection Fees** The minimum inspection fee payment of \$300 and five (5) final sets of full-size plans must be submitted to and approved by the Planning Division and Public Services Department prior to the release of a building permit. If you need to make any modifications to the approved plans, you must submit a revised site plan application for staff review and approval.

Also note that, as stated in *Section 14-529* of the site plan ordinance, any person aggrieved may appeal this decision to the planning board within thirty (30) days of the date of the written decision of the planning authority. Upon the taking of such an appeal, the application shall be reviewed as a new application.

The Development Review Coordinator must be notified five (5) working days prior to the date required for final site inspection. The Development Review Coordinator can be reached at the Planning Division at 874-8632. All site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.

If there are any questions, please contact Nell Donaldson at (207) 874-8723.

Sincerely,

Stuart O'Brien
Planning Division Director
