The storefront renovations are part of a multi phase HP application - 2016-035 - which includes alterations to the rear rooftop addition. At the 4/20/16 HP Board meeting, staff was authorized to finish the review of the storefront alterations. It is 2016-035 to which these drawings pertain. As far as I know, no building permit has been filed yet for the storefront, but perhaps these drawings will serve for the building permit as well.

A separate building permit application, 2016-00694, for a new dormer on the front roof, is in the system. This front dormer was approved by the HP Board in February.

What permit would this go to?
