Dear Captain Brennan:

This letter is to inform you that on Monday, March 6, 2017, we completed the inspection and testing of the fire alarm system located in the building at 136 Commercial Street in Portland, ME. All the fire alarm devices that are tied into the building's existing fire alarm control panel were tested with signals sent from these devices and received at our Central Monitoring Station. These devices were found to be fully functional at that time.

Should you have any questions or comments regarding this matter, please feel free to contact me at (207) 846-3350.

Sincerely,

Ronald S. Sneider, Manager
