Hello Ann,
Sorry for the missing info. Attached are photos of front of building, existing sign bracket, hanging sign, and sidewalk sign.
Hanging sign dimensions are as below. Sign is made of wood and metal and it will be fastened to the existing bracket.
Sidewalk sign dimensions are 2' x 3'; Tenant footage is 1800 square feet.
If you need any more info, please call me at 603-986-8703.
Thank you and have a great day.
Matt

Matthew -
I need more information before I can sign off on the permit for zoning. You did not provide everything that is listed on the checklist.
You need to provide a sketch of the building or a photo of the building front indication where the sign is going.
With the sign - you need to include the material that the sign is made out of and how it is being attached to the building.
On the application you only give one set of dimensions - 2'3" x 3'3". Is that for the wall sign? I also need to know what your tenant frontage is. What are the dimensions for the sidewalk sign?
Please send the information directly to me.
Thank you.
Ann Machado
